Si uelis denig floreæ curæ quàm facilem aditum, tam difficilem aditum hortensi repræsentare simulacro: tuos hortos in labyrinthum implica, cuius hic imago aliqua exhibetur. Possunt autem labyrinthi areolæ uel cæterarum instar humiles subsidere, ut oculi tantùm implicatis flexibus irretiantur: uel ad quatuor circiter palmos lateritia structura excitari, ut pedes quoq; inter flores ereabundi iucundissimè impediantur.
