*Qui Patrie Patrum venientia fata retardans,
Obstrinxit meritis publica, priva, suis.
Principibus carus, sanisq; adamat' et aegris,
Carus oó ingenium, carior artis opem:
Occubuit, vite satur, et jam plenus honorum,
Nec mors hunc potuit quam superare senem.
Et tamen, heu! citius. Nam quantum interdidit ævi,
Tantum incrementis, ô Medicina, tuis.*
