JEREMIAS

LSVAVIVS
INVETOR

A vertical ruler and color calibration strip. The ruler is marked in centimeters, with major ticks every centimeter and minor ticks every millimeter. The numbers 2, 3, 4, 5, 6, and 7 are visible. To the right of the ruler is a color calibration strip with several colored squares: black, grey, white, red, yellow, green, cyan, blue, magenta, and black. Below the ruler, there is a small circular logo featuring a classical bust of a man's head.
