

*Qualem purpureo diffundit flore colorem
 Quæ matutino se rosa rore foveat:
 Qualis pulchra rubet croceis Aurora quadrigis
 Cum nitidum roseo promit ab axe diem.
 Tale jubar terras splendore insignit, et astra
 Ambrosiam quoties exeris ipsa comam.
 Sol si deficiat magno quo nititur orbe;
 Tu magno lucem Solis in orbe feres.*
